

Faith's ImPACT: Promoting Human Fraternity, Empowering Future Generations

Parallel Event

UN Civil Society Conference

09-10 May 2024 | Nairobi, Kenya

Introduction

The 2024 UNCSC is organized under the guiding principle “Shaping a Future of Global and Sustainable Progress”. As such, it welcomes stakeholders to host thematic workshops as part of the conference proceedings, with the aim to deepen collective efforts towards a sustainable and just future, and to advance major reforms outlined in the Pact for the Future.

Together with the Interaith Alliance for Safer Communities (IFASC) and The Church of Jesus Christ of Latter-day Saints (LDS), Arigatou International—Kenya will host an interfaith, multi-stakeholder workshop, “Faith's ImPACT: Promoting Human Fraternity, Empowering Future Generations”.

The workshop seeks to foster multi-stakeholder partnerships and commitments to advance children's wellbeing and rights, for sustainable development. It will promote human fraternity, meaningful children's participation and empowerment, and building resilient communities. It highlights present and emerging challenges, progress, and opportunities facing children globally – through interfaith and multi-sectoral dialogue.

Focus areas

- Promotion of child-centered community:
- Amplifying meaningful participation of young people.
- Fostering multi-stakeholder partnerships.
- Promoting dialogue on building resilience.
